

THE ROMANS

Name

Date

Roman Place names

In Britain many place names have Roman endings- "caster" or 'chester' are just two examples, as in *Doncaster* and *Winchester*. A '*castra*' was a Roman fort.

In an *atlas*, find a map of Great Britain that shows towns and cities- a **political** map, similar to the one you can see here. Write down as many towns or cities with these Roman endings as you can fit in the boxes below.

Two such places with Roman names, **not too far from your school**, are included below to start you off!

-caster place names

-chester place names
